March 18, 2019

The Carpenters' & Millwrights are proud to support the Mining Bill 4227 that would create a Mining committee in Michigan.

In an effort to support the proposed legislation, this is our submittal for a white card information for the upcoming hearing on the bill.

Michigan Regional Council of Carpenters and Millwrights represents more than five hundred members across the Upper Peninsula and 14,000 Carpenter and Millwrights across the state of Michigan. The mines supply us and this community with thousands of work hours and tens of thousands in direct income and benefits throughout the buildup as well as ongoing maintenance work with scheduled maintenance outages. We value the opportunity to provide livable wage jobs with benefits to all stakeholders.

If you have additional questions, please feel free to contact me at the number listed above.

Respectfully,

Brian Kerrigan
Regional Director
Carpenter/Millwright Local #1510
