RE: House Bill 5700

I am the manager of Heritage Ag Lakeview Mi operating 5 planes in and only the state of Michigan for the last 12 years. I and the pilots that operate out of this facility are members of the MAAA and NAAA. We host the MDARD Operation Safe Fly In repeatedly to insure our Pilots and Planes meet requirements of Part 83, section 8315(2). We feel this bill would loosen requirements that the MAAA has and will continue to keeps pilots safe in Michigan.

We ask that this bill be turned down to continue safe and responsible aerial application on our land and water in the state of Michigan.

Thank You!

Greg Wing
