BACKGROUND AND SUMMARY OF PROPOSED RULES

This rule set implements the licensing requirements established in Public Act 368 of 1978, and enables health facilities to qualify for federal funding. Revisions to the existing rules are intended to align the rules with current industry standards and to eliminate unnecessary regulation. The rule set would ensure that providers offer a minimum level of service that is aligned with industry standards, create standards for patient records, and add hospice aide service requirements, in addition to other medical requirements.

FISCAL IMPACT OF PROPOSED RULES

Rule Set 2015-069 LR is not anticipated to have any fiscal impact on any units of state or local government.
