

MEMORANDUM

**DATE:** September 16, 2015  
**TO:** Members of the House Appropriations Committee  
**FROM:** Mary Ann Cleary, Director *MAC*  
**RE:** Legislative Transfer Package 2015-6

Attached are legislative transfers proposed by the State Budget Office in a letter dated September 9, 2015. Pursuant to section 393 of the Management and Budget Act, a legislative transfer must be approved by a majority of both the House and Senate Appropriations Committees, with identical funding sources and dollar amounts, in order to become effective.

There are two basic types of legislative transfers, which have different effects on the overall level of appropriations in the state budget.

A **standard legislative transfer** shifts existing spending authorization between line items in a particular budget area, with no net change in total appropriations. Generally, such transfers are proposed when expenditures are higher than originally anticipated in one line item and lower than anticipated in another. These transfers can represent a shift of GF/GP funding between two line items, or merely a shift of spending authorization from the same broad category of funding (federal, restricted, etc.) between the line items.

*As shown in the attached table, standard transfers in this package total \$90.78 million, which will shift 0.17% of total appropriations within the existing FY 2014-15 year-to-date state budget.*

A **contingency fund transfer** increases total line item appropriations in a budget area by moving contingency spending authorization from the boilerplate section of a budget act to a specific line item in order to recognize additional federal, private, local, or state restricted revenue that has become available since the original enactment of the budget. Absent the contingency fund transfer mechanism, this type of budget adjustment would be made through a supplemental appropriation bill.

*As shown in the attached table, contingency fund transfers in this package total \$2.97 million, which will increase the FY 2014-15 year-to-date state budget by 0.01%.*

If you have questions about the transfers generally, please contact me. If you have questions about an individual transfer, please contact the HFA analyst assigned to that budget area. We can be reached at 373-8080.

State general fund/general purpose	44,559,300	39,430,672*	5,128,628*	15,955,000		

This transfer shifts anticipated excess authorization from the Health Plan Services line item to other line items within the Medical Services Unit. Transfers to the Pharmaceutical Services and Hospital Services and Therapy line items reflect a technical need for increased authorization before anticipated negative book-closing accruals are posted after September 30, 2015. The transfer to the Federal Medicare Pharmaceutical Program line item reflects the anticipated need of \$3.7 million GF/GP to meet anticipated FY 2014-15 expenditures. This transfer is needed by September 30, 2015.

\*Year-to-date (YTD) expenditures, encumbrances, and balances by revenue source are estimates.

This transfer requests \$650,000 of additional GF/GP authorization for the State Supplementation line item based upon a projected increase in the average caseload and the average monthly cost per case from the May 2015 Consensus Agreement. The State is federally mandated to provide state supplemental payments to persons that receive federal Supplemental Security Income (SSI) payments. There is a sufficient year-end balance in the Emergency Services Local Office Allocations line item to cover this transfer. This transfer is requested by September 30, 2015.

State general fund/general purpose	90,715,300	62,038,932*	28,676,368*	1,900,000		

This transfer requests a transfer of \$5.1 million Temporary Assistance for Needy Families (TANF) authorization from the Field Staff, Salaries and Wages line item and \$1.9 million in GF/GP authorization from the Serious Emotional Disturbance- Waiver Program line item to the Child Care Fund line item. The Child Care Fund (CCF) is a cooperative effort between the State of Michigan and county circuit courts and is used to support programs that serve neglected, abused, and delinquent youth. Through the CCF, the State reimburses counties for 50% of all eligible CCF expenses. Caseload projections within this line item are anticipated to be higher than the May 2015 Consensus Agreement and, based on current projections, the Department is anticipating a funding shortfall and is requesting this transfer to address the higher caseload costs.

There is a sufficient year-end federal TANF balance in the Field Staff, Salaries and Wages line item to cover this transfer, due to a FY 2014-15 hiring freeze. There is a sufficient year-end GF/GP balance in the Serious Emotional Disturbance – Waiver Program line item to cover this transfer due to programmatic changes for service expansion that are in process, but not yet fully implemented. This transfer is requested by September 30, 2015.

\*Year-to-date (YTD) expenditures, encumbrances, and balances by revenue source are estimates.

The Director of LARA maintains the discretion to either classify or unclassify deputy director positions and the decision was made earlier in FY 2014-15 to designate deputy directors as classified positions. Consequently, LARA is requesting that spending authorization to support the salaries of the deputy directors be included within the Executive Director Programs line item to accommodate the reclassification of the three currently filled deputy director positions from unclassified to classified positions.

However, in addition to reclassifying the deputy director positions, LARA is reallocating the fund sources used to support the positions to more accurately align charges with deputy directors' workloads. Because, there is no appropriation from the Licensing and Regulation Fund for the Unclassified Salaries line item and the appropriation from Radiological Health Fees for the Unclassified Salaries line item is insufficient, LARA is requesting a contingency transfer with the explicit expectation that equivalent appropriations from other state restricted funds for the Unclassified Salaries line item will lapse at the close of the fiscal year.

The State Survey and Remonumentation Act of 1990 requires LARA to reimburse, over a period of at least ten years, any county that expended or borrowed money prior to June 12, 2014 to expedite the completion of its Monumentation and Remonumentation Plan (Plan). These reimbursements are in addition to the statutorily-required annual grants to counties to implement their Plans. In January 2013, Ottawa County entered into an agreement with LARA for reimbursement of expenditures made to expedite its Plan over a period not less than ten years. As of September 2014, LARA had reimbursed Ottawa County for \$119,776 of the total \$1.87 million expended to expedite its Plan. This contingency transfer would provide spending authorization to support additional reimbursement. The Survey and Remonumentation Fund created by the State Survey and Remonumentation Act of 1990 to support annual grants to and reimbursements of counties currently has a balance of \$2.23 million, subsequent to awarding the FY 2014 -15 annual grants.

This transfer is needed to provide additional authorization to address a deficit in the Grand Rapids Home for Veterans due to the inability of veterans to pay the maximum assessment and declining veterans' homes member census. National Guard Tuition Assistance Program authorization is available due to lower than anticipated demand during the first year of the program. Additional transfer requests are anticipated to fully address a projected FY 2014-15 shortfall in the veterans' homes line. This transfer is needed by the end of the fiscal year.

This transfer is needed to align authorization with higher than anticipated state restricted income and assessments revenues at the Grand Rapids Home for Veterans. Pursuant to PA 6 of 2015, state restricted income and assessment authorization was reduced by \$3.3 million, requiring the use of contingency authorization to recognize available state restricted revenues. Authorization is available from state restricted contingency revenues in accordance with PA 252 of 2014, Article XIV, section 206(2). This transfer would maintain lower state restricted income and assessments authorization than was originally appropriated in PA 252 of 2014, Article XIV, but higher than the current authorization. This transfer is needed by the end of the fiscal year.

This request transfers \$500,000 in authorization from state restricted contingency funds to Information Technology Services and Projects to cover increased costs associated with DTMB support of their mainframe Unisys. The Unisys system is used to process branch office transactions and stores all vehicle and driver records. Funding is available from state restricted contingency funds in accordance with PA 252 of 2014, Article VIII, section 701(2). This transfer is requested to meet current payment obligations.

If approved, this request would transfer \$1.0 million GF/GP from the Disaster Assistance line item created by 2014 PA 356 to the Disaster and Emergency Contingency Fund (DECF) resulting in a fund balance of \$4.0 million. The DECF was created by the Emergency Management Act of 1976 and is statutorily required to maintain a balance between \$1.0 and \$4.5 million which may be expended to offset emergency operation expenses of state agencies and, upon declaration of a disaster or emergency, provide assistance to local units of government.

PA 356 appropriated \$30.0 million GF/GP and \$2.5 million from the DECF to the Disaster Assistance line item for state disaster assistance expenditures related to the frost emergency in Northern Michigan and flood disaster in North-Western Lower Michigan and for state matching funds to secure approximately \$32.1 million in federal disaster assistance grants to 73,411 individuals affected by and state agencies responding to the flooding disaster in Southeastern Michigan.

In response to lower than anticipated demand for federal disaster assistance, Executive Order 2015-5 reduced the appropriation for the Disaster Assistance line item by \$16.0 million GF/GP while 2015 PA 6 transferred another \$3.0 million GF/GP from the Disaster Assistance line item to replenish the DECF.

Of the \$13.5 million (\$11.0 million GF/GP and \$2.5 million from the DECF) still appropriated to the Disaster Assistance line item, \$1.7 million GF/GP would remain unexpended subsequent to the approval of this transfer; the MSP has requested a work project designation for the remaining appropriation to support future disaster assistance activities.

The transfer is needed in order to adjust financing sources for civil service assessment revenue based on actual revenue collections per PA 252 of 2014, section 850(2). The line items are estimates of what the Civil Service Commission will collect from other agencies and departments. A higher number of agencies paid the CSC out of local funds than anticipated, which resulted in the needed transfer request.

This request transfers \$250,000 in authorization from Personal Property Tax Reform one-time basis only appropriations to May Election Administration in Grants to cover final costs associated with the Special May 2015 Election. Additional general funds are available in the Personal Property Tax Reform due to actual payments being less than anticipated. Based on an August 31, 2015 memo from the Department of State to the Department of Treasury, the total reimbursement amount certified was \$10,134,795.44. Due to several local jurisdictions billing very late, with two subsequent submissions after the first installment of payments, at the last presidential primary, the Department of Treasury is requesting the \$250,000 transfer to ensure that all billings are paid in full.

Section 952(5) of 2014 PA 252 states that unexpended funds appropriated for the city, village, and township revenue sharing program shall be available for expenditure under the financially distressed cities, villages, or townships grant program. City, village, and township revenue sharing funds are available due to 19 eligible local units not meeting requirements and forfeiting CVT Revenue Sharing funds. The financially distressed cities, villages, or townships grant program supports grant funding to cities, villages, or townships with one or more conditions that indicate probable financial distress to pay for specific projects, services, or strategies that move a city, village, or township toward financial stability.
