Major Boilerplate Changes From FY 2010-11

Sec. 6(4)(r). Kindergarten Pupil Membership Definition - REVISED

House maintains current law for FY 2011-12 but requires that beginning in FY 2012-13, a kindergarten pupil must receive an equal number of instructional hours as pupils in grades 1-12 to be counted as a full FTE. Therefore, districts would only receive a full foundation allowance for a kindergarten pupil for a full-day instructional program.

Sec. 6(7). Fall Count Day - RETAINED

Executive revises the fall pupil membership count day from the fourth Wednesday in September to the first Wednesday in October. House maintains current law.

Sec. 6(19). Definition of Textbook - REVISED

Executive revises to add "electronic book, or other instructional print or electronic resource" to the definition of a textbook. House concurs with Executive.

Sec. 11. Proration Language (Section 11) - REVISED

Executive moves the language, which provides for a method for prorating school aid funds in the event that the appropriations exceed the available school aid fund revenue, to Section 195 of an Education omnibus bill. Under the bill, the proration language would now also apply to School Aid Funds appropriated to community colleges and universities.

House concurs with Executive on proration language applying to School Aid Funds appropriated to community colleges and universities but leaves it in Section 11 and maintains 3 separate bills for funding School Aid, community colleges and higher education.

Major Boilerplate Changes From FY 2010-11

Sec. 18(5). District Financial Data - REVISED

Executive eliminates a requirement that the department make district financial data available online and shall include per pupil amounts spent on instruction and instructional support service functions, and the portion of costs attributable to salaries because it duplicates information provided in Department Bulletins 1011 and 1014. Also eliminates the requirement that districts post a link on their websites to the department website where the financial information was posted. (*This is not an elimination of the budgetary transparency information that each district and ISD are required to post on their own websites.*)

House concurs with Executive.

Sec. 20. Foundation Allowances – REVISED

Executive revises the calculation of district foundation allowances to reduce each district's foundation allowance to reflect the \$470 per pupil reduction. Also eliminates foundation allowance adjustments based on small class size and adjustments for specific districts including Bois Blanc, Wayne-Westland, Gibraltar, Garden City and Huron. Under this proposal the minimum foundation allowance would equal \$6,846 and the basic foundation allowance would equal \$8,019.

House revises the calculation of district foundation allowances to reduce each district's foundation allowance by 3.5% time the district's FY 2010-11 foundation allowance or the basic foundation allowance, whichever is less, and then further reduces each foundation allowance by \$170 per pupil in order to roll in the Section 11d per pupil reductions. Under this proposal the minimum foundation allowance would equal \$6,890 and the basic foundation allowance would equal \$8,022. Total per pupil reductions would range from \$426 per pupil at the minimum foundation to \$467 per pupil at the basic foundation or above. House concurs on elimination of district-specific and small class size foundation adjustment eliminations.

Sec. 22b. Discretionary Payment of the Foundation Allowance for FY 2012-13 – REVISED

Executive includes new language that would earmark \$300 million out of the appropriation for foundation allowances in FY 2012-13 for only districts that charge those employees eligible for health care benefits at least the same percentage of costs as that being paid by state employees.

House revises and moves the language to Section 22f. Rather than reducing foundation allowances further in the absence of reforms, it would provide incentive payments in FY 2012-13 to districts that implement reforms.

Sec. 22f. Best Practices Incentives for FY 2012-2013 – NEW

House creates an incentive grant beginning in FY 2012-13 for districts and ISDs that implement best practices including, at a minimum, two identified practices: That a district or ISD (1) pay no more than a state maximum allowable employer contribution for health care benefits for employees and (2) develop a services consolidation plan in agreement with the department if it hasn't already done so under former Section 11d, and if it has, then it must continue to implement that plan and annually report on progress. Requires the department to identify allowable cost-sharing arrangements for non-instructional and instructional services and creation of joint operating agreements between and among districts, intermediate districts and local units of government. Requires department to create benchmarks to measure successes including demonstrated cost reduction and efficiency and to recognize consolidation and cooperation efforts already in effect as well as continued progress. The state maximum health care benefit would have four rates depending on type of coverage: employee only, employee spouse, employee and children, and full family. For FY 2012-13 the state maximum employer contribution would equal 80% of the state's health plan for each of the four coverage levels in FY 2011-12. In subsequent years the dollar cap would grow by the increase in the Detroit Consumer Price Index.

Sec. 31a. At-Risk Payment – RETAINED

Executive eliminates exceptions made for Dearborn and Baldwin which would otherwise prohibit districts whose combined state and local revenue per pupil exceeds the basic foundation allowance from receiving At-risk funds. The exception for Dearborn is because more than 25% and at least 4,500 of its students qualify for free or reduced food programs. The exception for Baldwin is because more than 75% of its students qualify for free or reduced food programs. The current allocation for Dearborn is reduced to 75% of its allocation as would otherwise be calculated under the formula.

House retains current exceptions which allow Dearborn and Baldwin to qualify for funding. Also makes providing a crisis intervention or anti-bullying program an allowable use of at-risk funds.

Sec. 32b. Early Childhood Investment Cooperation (ECIC) Collaborative Report – REVISED

Executive eliminates the required Department report due by December 1 of each year to the appropriations subcommittees, the state budget director, and the fiscal agencies a detailed report of the grants awarded under this section and an analysis of each grant recipient's success in addressing the development of a comprehensive system of early childhood services and supports.

House maintains reporting requirement and establishes intent to move funding in FY 2012-13 to early childhood block grant program administered by ISDs in conjunction with local great start collaboratives. Requires department to work with intermediate districts, districts, great start collaboratives, and ECIC to revise application processes, funding formulas, program criteria, and data reporting requirements and report recommendations to legislature by January 1, 2012.

Major Boilerplate Changes From FY 2010-11

Sec. 32d. Great Start School Readiness Program (GSRP) – REVISED

Executive eliminates the option that districts may use their GSRP funds for parenting education programs. Currently only districts that were using funds for such programs in 2006-07 may continue to do so and may not spend more than they spent in 2006-07 on parenting education programs.

House maintains current law.

Executive revises early childhood teaching requirements to recognize new early childhood teaching certification (ZS) and to require teachers to complete compliance plans within 2 years rather 4 years from the date of employment. Also eliminates exception for subcontracted programs allowing teachers with 90 credit hours and at least 4 years' teaching experience in a qualified preschool program to meet the requirements to participate in the program.

House concurs with Executive.

Executive revises the definitions of a full-day program and a school-day program, such that a school-day program would be one that operates for the same length of day as the district's first grade, for a minimum of 4 days a week, 30 weeks a year. A full-day program would only be those that provide supplementary child care so that the program totals at least 10 hours per day. Only a full-day program would still be given priority in the allocation of funds (Section 39(8)).

House maintains current law.

House revises this subsection to allocate funds to intermediate districts or consortia to act as fiduciaries for the programs. Requires that in FY 2011-12 the intermediate districts and consortia distribute funds to districts and to competitive programs based on the current funding formula for districts in Sec. 39 and the grant award distribution for competitive programs in Sec. 32l as directed by the department. Requires districts and competitive grant recipients to comply with existing program requirements. Establishes intent to move funding in FY 2012-13 to early childhood block grant program administered by ISDs in conjunction with local great start collaboratives. Notes: (1) FY 2010-11 appropriation figures include the results of supplementals, Executive Order (EO) actions, and transfer adjustments through February 17, 2011. (2) FY 2012-13 figures are projected or proposed budget amounts only and would not be legally-binding appropriations. The Community Colleges budget is concurrently moving through the Senate as Senate Bill 171.

Overview

The Community Colleges budget supports the 28 community colleges located throughout the state. The colleges are governed by locally-elected board of trustees. The colleges offer a numerous educational programs aimed at traditional transfer students, career and technical education, developmental and remedial education, and continuing education courses. The colleges are funded through a combination of state aid, local property tax revenue, tuition and fees revenue, and other sources of revenue such as federal grants and investment earnings. State aid makes up about 19% of total community college general fund operating revenue, although the revenue mix varies considerably among the colleges.

Major Budget Changes From FY 2010-11 YTD Appropriations	House Changes		
	FY 2010-11 YTD (as of 2/17/11)	FY 2010-11 to FY 2011-12	FY 2011-12 to FY 2012-13
1. Operations Grants	Gross	\$292,557,800	(\$40,561,000)
The House reduces funding for community college operations by 15% (\$43.9 million). Funding for the At-Risk program (\$3.3 million) is re-calculated and rolled into the 28 operations lines. The Executive recommended that funding for community college operations remain unchanged. Each community college would receive the same amount for funding for operations (\$292.6 million) as it did in FY 2011. Operations funding has not changed since FY 2009.	Restricted	0	195,880,500
	GF/GP	\$292,557,800	(\$236,441,500)

The Executive recommended that the community colleges budget be incorporated into the school aid act - renamed the State Education Funding Act - with the colleges now receiving the majority of their state aid funded through the School Aid Fund. The House concurs with Executive and the bill structure and the fund shift. The 15% reduction taken by the House is from GF/GP funds.

Neither the House nor the Executive recommended any changes for FY 13, compared to FY 12.

The House eliminates the At Risk student success line item (developmental education services) and related boilerplate sections distributing funding to the colleges. The distribution of program funds are re-calculated based on newer ACS data (reported in February 2011) compared to the initial Executive calculations utilizing December 2010 data. The revised distribution is then rolled into the individual operations lines. Per boilerplate, the distribution of program funds is based on a base grant of \$40,000 to each college with the remaining balance distributed based on the share of student contact hours in developmental education programs compared to total student contact hours.

The Executive recommended that funding for the At Risk program remain unchanged. This funding (\$3.3 million) has not changed since FY 2004. The Executive revised the distribution, per the boilerplate formula, based on data available as of December 2010.

Major Boilerplate Changes From FY 2010-11

NOTES: (1) No new boilerplate language is proposed for FY 2012-13. (2) Under the Executive Recommendation, boilerplate sections were renumbered as section of the School Aid Act; standard sections are consolidated to apply to all appropriations within the act. Both current year and proposed School Aid Act section numbers are listed where applicable..

Overview

The Higher Education budget contains funding for operational support of the state's 15 public universities, the Agricultural Experiment Station and Cooperative Extension Service operated by Michigan State University, various financial aid programs for students attending public and independent colleges and universities in the state, and several other smaller higher education-related programs.

Major Budget Changes From FY 2010-11 YTD Appropriations	FY 2010-11 YTD (as of 2/17/11)	House Changes	
		FY 2010-11 to FY 2011-12	FY 2011-12 to FY 2012-13
1. University Operations	Gross \$1,420,344,900	(\$213,110,200)	\$0
Executive makes the following adjustments to FY 2011-12 operations appropriations for the 15 public universities:	Restricted 0	699,719,500	0
	GF/GP \$1,420,344,900	(\$912,829,700)	\$0

- Reduces each university's appropriation by 15.0%, for a total reduction of \$213.1 million GF/GP.
- From remaining appropriations, sets aside a total of \$83.0 million in tuition restraint incentive funding (separate line items). Under proposed boilerplate language, these funds would be paid only if a university held its FY 2011-12 resident undergraduate tuition/fee rate increase below the prior-five-year state average of 7.1%. Individual university incentive amounts are based on that university's average tuition/fee rate increase over the last five years, ranging from 5.1% to 9.8% of proposed FY 2011-12 appropriation amounts.
- Replaces \$699.7 million in GF/GP funds with School Aid Fund revenue; School Aid Fund revenue makes up 58.0% of each university's proposed FY 2011-12 appropriation amount.

House concurs with the overall reduction in university operations funding, but applies only a 14.0% across-the-board reduction. The remaining 1.0% reduction is applied based on a sliding scale formula, with larger reductions for universities receiving a higher amount of state funding per student. (Per-student funding amounts range from \$2,393 to \$7,310 following the 14.0% reduction.) Partial offsets are included for Lake Superior State (small enrollment) and Michigan Tech (high-cost degrees). Total percentage reductions to university appropriations from FY 2010-11 amounts range from 14.5% to 15.4%.

Major Budget Changes From FY 2010-11 YTD Appropriations

FY 2010-11 YTD (as of 2/17/11)	FY 2010-11 to FY 2011-12	FY 2011-12 to FY 2012-13
-----------------------------------	-----------------------------	-----------------------------

[University Operations, continued]

The House utilizes the same methodology as the Executive to set aside tuition restraint incentive amounts for each university and concurs with the overall Executive split between GF/GP and School Aid funding.

For FY 2012-13, both the Executive and the House propose to roll up university operations funding into a single funding amount of \$1,207.2 million (no change from FY 2011-12 total); proposed boilerplate language would provide for funding to be allocated to the universities using an incentive-based formula yet to be developed.

2. Agricultural Experiment Station and Cooperative Extension Service

Gross	\$61,915,700	(\$9,289,900)	\$0
GF/GP	\$61,915,700	(\$9,289,900)	\$0

Executive combines two existing appropriations into a single appropriation for Agricultural Experiment and Cooperative Extension Activities, with a 15.0% reduction in total funding (\$9.3 million GF/GP). Proposed FY 2011-12 funding of \$52.6 million; no further change proposed for FY 2012-13. House concurs.

3. State Competitive Scholarship Program
