Overview

The School Aid budget makes appropriations to the state's 541 local school districts, 300 public school academies, the Education Achievement System, and 56 intermediate school districts (ISDs) for operations and certain categorical programs. It also appropriates funds to the Center for Educational Performance and Information, the Workforce Development Agency, and other entities to implement certain grants and other programs related to K-12 education.

Major Budget Changes From FY 2015-16 YTD Appropriations

1. Foundation Allowances (Secs. 22a and 22b)

Executive increases foundations using the 2x funding formula with increases ranging from \$60 to \$120 per pupil. Increases the State Maximum Guaranteed Foundation (the Basic) from \$8,169 to \$8,229 and the Minimum Foundation from \$7,391 to \$7,511. The increase costs \$150.0 million, but after a cost reduction of \$126.7 million due to increasing local share from increasing taxable values and declining pupils, the net increase totals \$ 23.3 million. (See FY 2015-16 supplemental items below.)

	FY 2015-16 Year-to-Date (as of 2/10/16)	FY 2016-17 House Change
Gross	\$9,009,700,000	\$108,800,000
Restricted	8,993,379,500	(57,376,300)
GF/GP	\$16,320,500	\$166,176,300

Also adds \$72.0 million in Detroit Public Schools (DPS) Trust Funds (redirected from Tobacco Settlement Funds) to support the foundation allowance costs of the newly proposed Detroit Community district to offset the loss of local school operating millage revenue, which would be redirected to pay off the debts of the former district.

Also adds \$1.0 million to change the pupil membership blend from 90% of the October count plus 10% of the previous February count to 50% of the fall count plus 50% of the previous February count.

House concurs with Executive on foundation increases and \$72.0 million from the Community District Trust Funds for DPS but revises the pupil membership blend from 90% of the October count plus 10% of the prior February count to 85% of the current October count plus 15% of the previous October count. Includes \$13.5 million for proposed pupil membership blend changes.

2. MPERS Unfunded Liability – State Share (Sec. 147c)

Executive increases funding for the state share of Michigan Public School Employees' Retirement System (MPERS) unfunded liability costs for districts, ISDs, and public libraries pursuant to PA 300 of 2012 by \$89.3 million, bringing the total to \$982.8 million.

Gross	\$893,500,000	\$89,300,000
Restricted	892,900,000	89,300,000

Additional funding, if necessary, would be available for transfer from a \$50.0 million Flint Emergency Reserve Fund proposed in the FY 2015-16 supplemental for DTMB. Additionally, it would appropriate up to \$15.0 million in state restricted contingency funds, which would not be available for expenditure until approval of a transfer by the Legislature. (See FY 2015-16 supplemental items below.)	Restricted	0	100

<u>Executive</u> adds \$5.0 million for CEOs and supplemental payments to districts with schools identified as being in the lowest achieving 5% of public schools in the state and under the control of the State School Reform/Redesign Office (SRRO). Districts would receive a 20% foundation allowance premium for each high school FTE to compensate for the loss in foundation allowance funds remaining with elementary FTEs, since elementary foundation allowance funds often subsidize higher cost secondary schools, but would no longer be available to do so under a takeover. (See FY 2015-16 supplemental items below.)	Restricted	0	100

Currently, eligible districts receive 11.5% of a district's foundation allowance for each student qualifying for free lunch; however, the appropriation doesn't support full funding, so district allocations are prorated.			
8. Year-Round School Grants (Sec. 31b) – NEW	Gross	\$0	\$3,500,000
<u>House</u> adds \$3.5 million for grants to districts for building modifications or other nonrecurring costs related to implementing a new year-round school.	Restricted	0	3,500,000

Major Boilerplate Changes From FY 2015-16

Sec. 6. Pupil Membership Definitions – REVISED

Executive revises pupil membership blend in (4) from 90% of the October count plus 10% of the prior February count to 50% fall count plus 50% prior February count. Caps the number for which a district may claim a nonpublic school pupil membership, for the purposes of receiving state aid, at no more than 1/3 of an FTE for grades 1 to 12 to align it with Sec. 166b, which requires that a nonpublic student be part-time and limited to nonessential elective courses. (See also Sec. 166b below). Strikes language added in FY 2015-16 that would count allow a student to be counted as homeless if he or she was counted in membership in FY 2014-15 even if the student didn't meet the Federal homeless definition.

House revises pupil membership blend in (4) from 90% of the October count plus 10% of the prior February count to 85% of the current October count plus 15% of the previous October count. Does not cap the number of FTEs a nonpublic school pupil membership. House concurs to strike the homeless exception added in FY 2015-16. Adds that for a special education student who was expelled on the pupil count day but reinstated after, the district's membership shall be adjusted to count the student.

Sec. 20j. Foundation Calculations for Hold Harmless Districts – NEW

Executive due to an inflationary cap on Hold Harmless (HH) District Foundation Allowances, which was put in statute along with the school funding reforms tied to Proposal A in 1994, HH districts (currently foundation allowances greater than \$8,169) would be capped at increases ranging from \$8-\$15. The Executive budget reintroduces former Section 20j, which would allow the difference between each HH district's inflationary increase and the \$60 increase in the State Maximum Guaranteed foundation allowance to be allocated under a separate calculation than its foundation calculation in Sec. 20.

House concurs with Executive.

Sec. 21f. Virtual Classes – REVISED

Executive makes several changes including the following 3 major policy changes:

- Requires a district to provide written notification and a description of appeal process if denying enrollment. Also requires a district if disallowing a course for sufficient rigor to "enroll" a pupil in an alternative course, rather than "make a reasonable effort to assist" a student in finding an alternative.
- Requires primary enrolling districts to provide a student enrolled in more than 2 virtual courses per term with hardware, software, and internet access without charge to the pupil, in addition to the expenses paid for the virtual course under (9), currently 6.67% of the minimum foundation.
- Requires MDE to establish standards for appropriate hardware, software, and internet access and to establish minimum requirements to count a pupil in a virtual course in a district's pupil membership, for the purpose of receiving of state aid.
- Deletes requirement that online courses offered by community colleges generate postsecondary credit.

House concurs with changes regarding denying enrollment or disallowing a course, but does not include the other Executive recommendations.

Major Boilerplate Changes From FY 2015-16

Sec. 25e. Pupil Transfer Process – DELETED

Executive repeals this section and eliminates the pupil transfer process, which currently allows districts to transfer a portion of a pupil membership FTE, and thus the state aid funding tied to it, if a pupil transfers from one district to another between the Fall count date and the following February count date.

House concurs with Executive.

Sec. 32d. Great Start Readiness Program (GSRP) – REVISED

Executive prioritizes children who are homeless, in foster care, or have an IEP that requires preschool as if they are in the lowest income quintile. Reduces program eligibility notification requirements to community-based providers to those that are currently non-participating and to just one notice, which could be done electronically.

House concurs with Executive and revises the cap on ISD administration expenses from either 7% or 4% depending on whether or not the ISD is subcontracting services to 5% either way, and eliminates the 4% cap for subrecipient administration costs and instead counts them as direct services.

Sec. 39. Great Start Readiness Program Formula – REVISED

Executive revises application and formula to base it on number of half-day slots filled rather children served such that the hold harmless provision, guaranteeing an ISD at least its prior slot allocation, would include slots used to provide full-day programs.

House concurs with Executive.

Sec. 51a(15). Special Education Penalty – REVISED

Executive deletes legislative intent that, beginning in FY 2016-17, would penalize a district, PSA, or ISD by 10% of its total state aid if it does not comply with the process for special education services for PSA pupils under subsection (14) or federal regulations.

House maintains the penalty and implements it beginning in FY 2016-17.

Sec. 101. Days and Hours of Instruction – REVISED

Executive deletes district reports of days and hours of instruction and replaces with district certification to MDE that it is in full compliance or district reports to MDE for each instance of noncompliance.

House concurs with Executive.

Sec. 104b. Assessments – DELETED

Executive maintains current law.

House repeals this section, which requires that districts administer the Michigan Merit Exam including a college entrance test (SAT, formerly ACT), a work skills test (WorkKeys), and a state summative assessment (M-STEP).

Sec. 104c. Assessments – DELETED

Executive revises to require fall and spring assessments in grades K to 2, and eliminates the kindergarten entry assessment.

House repeals this section.

Sec. 107. Adult Education – REVISED

Executive revises eligible programs to add adult secondary education programs, eliminate job- or employment-related programs, and revise GED to high school equivalency test prep programs. Deletes all current participant eligibility criteria, and replaces with either a) is at least 20 years of age or b) is an out-of-school youth as defined in federal Workforce Innovation and Opportunity Act. Deletes FTE funding formula based on 80% enrollment and 20% completion. Makes payments based on statewide allocation criteria including 3-year average enrollments, census data, and local needs as well as participant completion data, and allowable expenditures.

House concurs with Executive except maintains current law in regards to participant eligibility criteria.

Sec. 166. Penalty for Family Planning – REVISED

Executive repeals this section.

House revises the penalty under which a district currently forfeits 5% of its total state aid if a board member or staff distributes family planning drugs or devices or makes referrals for abortions. Instead it would require a district to adopt a disciplinary policy for school officials or staff for violations of MCL 380.1507 (regarding Sex Education and prohibits distribution of family planning drugs or devices) or for making abortion referrals. A district that fails to adopt a disciplinary policy would forfeit \$100,000 of its state aid. The policy must create financial penalties for school officials, staff, or contractors and require that penalties be negotiated in collective bargaining agreements.

Major Boilerplate Changes From FY 2015-16

Sec. 166b. Nonpublic Students – RETAINED

Executive revises to clarify that a district may count nonpublic students as FTEs, to receive state aid, for nonessential, elective courses "that are offered **AND BEING PROVIDED**" to full-time pupils in the same grade level or age group during regularly scheduled school hours.

House maintains current law.

Sec. 167a. Expelled or Suspended Pupils – NEW

House adds language that would reduce a district's foundation allowance funding by 1/180 per day for a student that was expelled or suspended for more than 10 days.
