Overview

Article VI of the State Constitution of 1963 forms the basis for Michigan’s judicial branch of government. The Judiciary budget provides operational funding for the Michigan Supreme Court, the Court of Appeals, and related judicial agencies. The budget funds the salaries of justices of the Supreme Court and judges of the appeals, circuit, probate, and district courts according to constitutional and statutory requirements. Funding assistance for local trial court operations is provided through a variety of grant programs. The largest of these, the Court Equity Fund Reimbursement program, reimburses counties for trial court operations based on a statutory formula that recognizes circuit and probate caseloads and the number of judgeships.

Major Budget Changes from FY 2021-22 YTD Appropriations

1. Statewide Judicial Case Management System

Executive includes \$175.0 million GF/GP for costs of developing a single, statewide judicial case management system. Currently, there are 242 trial courts using and funding more than 16 case management systems and 150 computer systems. The Trial Court Funding Commission recommended that the state provide all court technology needs for trial courts, including case and document management services, and the Supreme Court recently ordered that local trial courts submit all case data in a uniform manner. Funding would support data management efforts and consistent implementation of newer technologies among trial courts. House includes \$111,100 less than the executive for the same purpose.
