Overview

House Bill 5265 (S-3) does the following:

- Reflects caseload-related and other adjustments in the Health and Human Services budget totaling a net reduction of \$138.8 million GF/GP.
- Appropriates \$4.0 million GF/GP to the Treasury budget for costs associated with the presidential primary and \$420,000 GF/GP to the Military and Veterans Affairs budget to cover costs of deploying the National Guard in response to protests and demonstrations. A reduction of \$4.4 million GF/GP is included in the Health and Human Services budget to offset these costs.
- Appropriates \$8.0 million GF/GP in the Health and Human Services Budget for new expenditure needs for the West Michigan Partnership for Children Consortium.
- Reduces GF/GP in the Health and Human Services budget by \$194.5 million to reflect additional FMAP.
- Reduces the DTMB budget by \$100.0 million GF/GP and the Health and Human Services budget by \$25.0 million GF/GP to reflect the removal of health care-related FEMA match funding.

- Reduces statutory revenue sharing payments to cities, villages, townships, and counties by \$96.5 million of restricted sales tax revenue. Includes \$150.0 million from federal Coronavirus Relief Fund to provide payments to cities, villages, townships, and counties that had statutory revenue sharing payments reduced.
- Reduces other GF/GP appropriations by \$8.6 million. Some reductions are offset by fund source shifts. Adjustments associated with federal appropriations are also included in the bill.

In sum, the bill increases Gross appropriations in the FY 2019-20 state budget by \$1.0 billion and reduces GF/GP appropriations by \$538.7 million. The bill also contains various adjustments to budget-related boilerplate, as described at the end of this document.

Under Article V, Section 20 of the State Constitution and the Management and Budget Act, the Governor, with the approval of the House and Senate Appropriations Committees, is required to reduce expenditures authorized by appropriations whenever it appears that actual revenues will fall below the revenue estimates on which appropriations were based. The General Fund/General Purpose (GF/GP) reductions of \$538.7 million in the bill, in conjunction with Executive Order (EO) 2020-155, Senate Bill 373, and work project lapses specified by the State Budget Director in a letter dated July 22, 2020, resolve a projected GF/GP and School Aid Fund shortfall of \$2.2 billion in the FY 2019-20 state budget. The budget shortfall resulted primarily from the COVID-19 pandemic. Additionally, there is a planned set of implementation bills that would transfer \$165.7 million to the General Fund.
